If you've been looking for a "move-in tomorrow" villa that actually feels like a home, this is it. Located in the quiet, rolling hills of Mijas Costa, this designer villa sits right on the edge of the world-class La Cala Golf Resort.

It’s rare to find a property of this caliber that is already fully furnished and finished to such a high standard.
The Standout Features
The Blank Canvas: While the house is key-ready, it features a massive 200m² pre-installed basement with natural light. It’s a huge space just waiting to be turned into a home cinema, a gym, or a massive guest suite.
The Layout: 4 spacious bedrooms and 3.5 bathrooms. The high ceilings and open-plan design make the 542m² floor plan feel even larger, with a seamless flow out to the terraces.
Outdoor Living: You’ve got a large private pool and landscaped gardens designed for hosting, all with the backdrop of the Andalusian hills.
Turnkey: No furniture shopping required. Every piece has been hand-selected to match the modern architecture, so you can start enjoying the lifestyle from day one.
The Location
You’re in a quiet pocket of Ur La Cala Golf, but you aren't isolated.
Golfers: Three Championship courses are essentially at your doorstep.
The Coast: A 10-minute drive gets you to the beach and the shops in Mijas Costa.
Marbella: Close enough for a night out or high-end shopping in Marbella East.

This one is in the first build-phase that was finished in 2022. Those villas on the opposite side of the street were finished at the end of 2023. The community fees are 39 euro per month
The villa is fitted with aerotermia and the running costs are actually very reasonable.
The plot is 1349m2. At the rear of the villa is the drive way with space for 4 cars with a covered carport. At the front of the villa is a large pool with around 1100m2 of garden and terraces where the pool is located.
The foot print of the villa is around 160m2. The villa has 2 levels of 160m2. And a presinstalled under-build of 200m2, with natural light in 2 places. I send you here some images to show renders of what can be done with the under-build.

The windows are spectacular. They are Cortizo and slide seemlessly along the floor with no raised step so that access in and out is easy. The windows slide fully into the walls and become totally invisible.
The community is made up of various nationalities. They tend to be older retirees, especially with teh Golf Courses so close, or families with children because it is a great location to access schools and sports.
