Overview

> </p>

>One of the most iconic historic homes in Gaucín has come to the market — a truly remarkable property offering exceptional scale, breathtaking panoramic views and enormous potential for transformation.<

Although the house has sadly fallen into a state of disrepair over recent years, the structure itself remains fundamentally sound, presenting a rare opportunity to restore and reinvent one of the village's landmark residences into an extraordinary luxury home.

Positioned in the sought-after Barrio Alto area of the village, this substantial five-level property extends to almost 857m² of built space, including expansive terraces, all set within a generous urban plot of 529.50m² with a

large private garden — an increasingly rare feature within the historic centre of Gaucín.

The versatility and sheer size of the property open up a number of exciting possibilities. For investors and developers, the layout and scale lend themselves perfectly to conversion into several exclusive luxury apartments or boutique holiday residences. For those seeking a lifestyle project, the property would also make an exceptional high-end boutique guesthouse or bed and breakfast, combining authentic Andalusian character with spectacular views and outdoor spaces.

Comprising 2 storage rooms, 1 bedroom and 1 bathroom.
- **Level -1** (one floor below street level) – 305m²
