OPTIONAL COMPLETE RENOVATION – APPROX. €350,000

For buyers who wish to purchase the property and immediately transform it into a modern luxury villa, we can also organise and carry out a complete renovation for an additional cost of approximately €350,000, depending on the final design, materials and specifications selected by the buyer.

The proposed renovation concept can include:

Reconfiguration of the villa to create 3 to 4 spacious bedrooms

Large open-plan living and dining area with a modern open kitchen

Up to 3 modern bathrooms

Large, bright floor-to-ceiling windows with elegant dark/black frames

New modern entrance door

EXCEPTIONAL DEVELOPMENT AND EXPANSION POTENTIAL

This exclusive property offers not only outstanding comfort and privacy but also exceptional future development potential.

According to the available architect's documentation, the property has a permitted building density (Edificabilidad) of 0.613 m²/m², a maximum building height of 15 metres, and allows for up to three storeys.

Based on the plot size of approximately 1,363.50 m², this represents a theoretical development potential of up to approximately 836 m² of built area, subject to confirmation and planning approval by Benahavís Town Hall.

Neighbouring luxury villas within the community have already been developed over three levels, further demonstrating the development character of this exclusive residential area.

This creates an exceptional opportunity for a future owner to significantly expand the existing villa and potentially create a substantial luxury residence with additional bedrooms, guest accommodation, wellness and spa facilities, gym, home cinema, entertainment areas, offices or other bespoke living spaces.

The available architectural and property documentation can be provided to seriously interested buyers upon request.
